

Wireless Solutions

Secure. Fast. Scalable.

Cabco offers high quality, business class wireless access solutions for virtually any indoor or outdoor application.

Whether you require guest access in a hotel, a Wi-Fi hotspot for your business, network access in a contact center or office building, or long distance wireless point-to-point broadband for remote buildings, Cabco can provide we the solution at a price point that fits your budget.

Experience counts. Choose Cabco.

CERTIFIED RUCKUS WIRELESS PARTNER

Ruckus Wireless offers high quality, reliable Wi-Fi solutions with all the features you expect, without the cost and complexity.*

- **Best coverage:** Fewer access points blanket a bigger area, reducing capital and operational costs
- **Affordable:** Robust wireless LAN at a fraction of the cost of alternatives
- **Fast install:** Configuration and deployment in half the time
- **Simple:** A smart wireless LAN that self-optimizes and is easy to manage
- **Reliable:** Consistent, stable and secure wireless signal is assured
- **Scalable:** Smart meshing allows placement of access points anywhere there is power without having to pull extra Ethernet cable for connectivity
- **Fast:** 802.11 technology assures speed and efficient bandwidth usage

***Save 50% versus comparable branded wireless systems**
