46%

of businesses reported significant cost savings by outsourcing their IT functions to Managed IT Solutions providers.

Deloitte. *Insights*

At Cabco, we understand the critical role technology plays in driving your business forward. With a network of global industry leaders as partners and a team of expert technicians, we are committed to providing cutting-edge technology solutions, services, and procurement expertise to businesses like yours. Our approach is proactive, empowering you to work smarter, more securely, and with unrivaled efficiency.

Your IT operations form the critical backbone of your business. That's why you need a Managed IT Solutions Provider you can trust and depend on.

Cyber Security

In the face of increasing frequency and complexity of cybersecurity threats, protecting your business requires a robust security infrastructure. Cabco offers a multi-layered approach to security, combining best-in-class software with the expertise of our highly trained security professionals.

Prevent, detect, and stop cyber threats with confidence, knowing that Cabco has your back.

Our comprehensive security solutions include:

- Endpoint Detection and Response
- Email Protection / Anti-Phishing and Spam Blocking
- Disaster Recovery and Backup Solutions
- Security Awareness Training

DID YOU KNOW?

Over 90% of malware is delivered via e-mail every day to inboxes worldwide.

With Cabco Cyber Security solutions, you can secure emails before it gets to your PC.

Managed Networks

Experience fully managed IT services that optimize networks, enhance performance, and ensure system stability.

With Cabco's best-of-breed technologies and expertise, get the peace of mind you deserve.

Our managed network solutions can be summarized into:

- Custom-Designed Solutions
- Modern and Managed Network Solutions
- Monitored and Managed Access Points, Switches, Routers, and Server Room Environments.

Infrastructure Services

Ensure the ongoing performance, stability, and security of your devices and IT services with our predictive failure monitoring. Our advanced system identifies potential IT failures, triggering automated diagnostics to mitigate technology issues proactively.

Stay productive and safeguard your organization from risks with these comprehensive monitoring solutions:

- Server Management
- Virtual Server Hosts
- Managed Storage

Data Backup

In the face of looming ransomware threats, a mere cloud add-on to traditional image backup falls short.

We offer appliance-free direct-to-cloud backup for servers, workstations, and Microsoft 365 data.

With Cabco, you have the power to tailor your recovery process according to your specific needs and swiftly get back on track. Manage Exchange, OneDrive, and SharePoint backup and recovery from the same multitenant dashboard as servers and workstations.

- Flexible Recovery with Standby Image
- Cloud Storage Included
- Worldwide Data Centers
- Fully-managed, SaaS Solution
- Full Image Recovery and Virtualization
- Fast File-Level Restore

Cloud Services

Access to a comprehensive suite of cloud-based offerings that include hosted applications and services. We work with you side by side, making clever improvements that cut licence and capacity costs, reduce technical and security risks, and expand functionality.

We help manage applications from day 1, so you quickly reap business benefits.

- Microsoft Partner Subscriptions
- Hosted Microsoft Applications
- Security Software
- QuickBooks, signNow, and more.

Do any of these scenarios resonate with you?

Are your employees clicking on Phishing or SPAM links in emails?

Are your computers up to date with the latest operating system patches and security software?

Is your network and server environment configured correctly and secure?

Should your business have cyber insurance? Do you need assistance to complete the application?

Do you know if your IT environment has been attacked?

Do you have a trusted IT advisor?

Do you have a plan for when your data is compromised?

Manage your IT Infrastructure with ease.
Manage with Cabco.
